### Detection of Neurodegeneration

- SD- 101- Detection of neurodegeneration in the brain with FD NeuroSilver™ Kit
- SD- 102- Detection of neurodegeneration in the brain with Gallyas silver staining technique
- SD- 103- Detection of neurodegeneration in the brain with *in situ* nick translation technique (ISNT)
- SD- 104- Detection of neuronal apoptosis in the brain with *in situ* DNA nick end- labeling technique (TUNEL)
- SD- 105- Detection of neurodegeneration in brain sections prepared by investigator
- SD- 106- Detection of neurodegeneration in the brain with fluoro-jade B (or C)
