Immunochemistry

<input type="radio"/> Colorimetric Immunostaining <input type="radio"/> SI 101- One primary antibody on free- floating sections <input type="radio"/> SI 102- One primary antibody mounted on slides <input type="radio"/> SI 103- Two primary antibodies on free- floating sections <input type="radio"/> SI 104- Two primary antibodies mounted on slides <input type="radio"/> SI 107- 1- One primary antibody on free- floating sections; prepared by investigator <input type="radio"/> SI 107- 2- One primary antibody mounted on slides; prepared by investigator <input type="radio"/> SI 107- 3- Two primary antibodies on free- floating sections; prepared by investigator <input type="radio"/> SI 107- 4- Two primary antibodies mounted on slides; prepared by investigator Primary antibody(ies): _____ and _____
<input type="radio"/> Immunofluorescence Labeling <input type="radio"/> SI 201- One primary antibody on free- floating sections <input type="radio"/> SI 202- One primary antibody mounted on slides <input type="radio"/> SI 203- Two primary antibodies on free- floating sections <input type="radio"/> SI 204- Two primary antibodies mounted on slides <input type="radio"/> SI 205- Three primary antibodies on free- floating slides <input type="radio"/> SI 206- Three primary antibodies mounted on slides <input type="radio"/> SI 207- 1- One primary antibody on free- floating sections; prepared by investigator <input type="radio"/> SI 207- 2- One primary antibody mounted on slides; prepared by investigator <input type="radio"/> SI 207- 3- Two primary antibodies on free- floating sections; prepared by investigator <input type="radio"/> SI 207- 4- Two primary antibodies mounted on slides; prepared by investigator Primary antibody(ies): _____, _____ and _____

EXPERTS IN NEUROHISTOLOGY, NEUROHISTOPATHOLOGY, AND IMMUNOCHEMISTRY

Immunogold Labeling

- SI 301- One primary antibody on free- floating sections
- SI 302- One primary antibody mounted on slides
- SI 303- Two primary antibodies on free- floating sections
- SI 304- Two primary antibodies mounted on slides
- SI 305- 1- One primary antibody on free- floating sections; prepared by investigator
- SI 305- 2- One primary antibody mounted on slides; prepared by investigator
- SI 305- 3- Two primary antibodies on free- floating sections; prepared by investigator
- SI 305- 4- Two primary antibodies mounted on slides; prepared by investigator

Primary antibody(ies): _____ and _____

Testing & Titration of Primary Antibody

- SI 401- Colorimetric immunostaining on free- floating sections
- SI 402- Colorimetric immunostaining mounted on slides
- SI 403- Immunofluorescence immunostaining on free- floating sections
- SI 404- Immunofluorescence immunostaining mounted on slides
- SI 405- Immunogold labeling mounted on slides
